

Measure:

Business & Economic
Development

Promoters:

Castlefinn Partnership
Initiative & Clady Cross
Community Development
Association

Title:

**CPI & Clady Cross
Community
Development
Association**

Through this project, a five-unit business services complex was established within the Castlefinn Partnership Initiative complex. The availability of these enterprise units has attracted business and essential services into the job-starved border area of Castlefinn & Clady.

The provision of this infrastructure has helped facilitate job creation and economic development and also create networking opportunities for the local business community.

The enterprise units have now been leased by a Hairdresser; a Chemist; a Gym; a financial consultancy service and a FAS local office. None of these services were available in the Castlefinn / Clady area prior to this.

Total Project Cost: €441,675

Grant Awarded: €114,240
